

Arts

Humanities &
Social Sciences

Explore the past or map the human psyche. See the political angle or take the global view. Your horizons won't just broaden; they'll multiply.

Perhaps the most powerful outcome of taking courses from across the Arts (Humanities and Social Sciences) is that the process will fuel your mind as you become a versatile thinker, developing the creativity and communication skills needed to solve challenging and diverse problems. It's about thinking, exploring and changing yourself, your environment and the world around you. You'll walk away having mastered valuable forms of knowledge that enrich your understanding of human discoveries, cultures and experiences. You'll learn to apply that knowledge to help inform the discussion on diverse and complex issues.

By exploring a range of disciplines—whether literature, sociology, economics or a language—there's a good chance you'll discover your passion. While becoming a thoughtful, articulate, inspired and inspiring person, you'll also be earning credits toward a credential. Where will your passion take you?

GIVE YOUR MIND THE FUTURE IT'S ALWAYS DREAMED OF

An education in Humanities and Social Sciences prepares you for a variety of targeted and flexible career options as well as opportunities for more advanced education. You'll learn the problem-solv-

ing and critical-thinking skills employers are looking for in new employees. At their core, our courses are designed to stimulate your curiosity and support you in the challenge of developing flexible thinking, practicing critical literacy in approaching the flood of information available in the digital age, and being effective at communication and collaboration. You'll be prepared, versatile, and connected as you build your place in the world, both inside the university and beyond. It's more than personal; it's interpersonal.

WHY CHOOSE CAPILANO?

A FOCUS ON TEACHING: As a special purpose teaching institution our focus is on you, the student. You will learn from instructors who are well respected in their fields, passionate about teaching, and have classroom styles that are dynamic, flexible and interactive. This approach to learning allows a meaningful student-instructor dynamic to flourish, so your instructor is able to recognize and maximize your strengths and you can harness your full potential.

ACCESS TO INSTRUCTORS: At Capilano, learning extends beyond the classroom. Our instructors are available to talk one-on-one about assignments, essays, course or discipline topics or just share insights. It's like having an extra

Whether you're in exploring mode or know exactly where you're headed, there are many study options at Cap. You can take courses from traditional arts disciplines (see right) on a part- or full-time basis during the spring, summer and fall or, if you've found your focus, work toward one of these credentials:

COURSES AND CREDENTIALS

BACHELOR DEGREES

A bachelor degree represents a minimum of 120 credits and usually takes four years to complete. The Faculty of Arts & Sciences offers Bachelor of Arts degrees with a major in Liberal Studies and Applied Behaviour Analysis (Autism). Additional bachelor degrees are offered by other Faculties.
