

# Motion Picture Arts

Imagination unlimited

# Make it real. Make it surreal. Just make it.

Anything is possible in film. A mutant dinosaur can reduce a city to rubble. A groundbreaking documentary can shatter convention. A jaw-dropping costume can blow everyone's socks off. Best of all, a well told story can captivate an audience and transport them out of their everyday lives. Maybe even change their lives. If you want to learn how to tell stories like that, Capilano University's School of Motion Picture Arts will show you how.

## HANDS-ON LEARNING

The School of Motion Picture Arts is home to highly respected programs in animation, visual effects, motion picture arts, documentary and indigenous filmmaking, and film crafts like costuming and lighting. Our programs immerse you in hands-on learning right out of the gate. In fact, you'll be making films, costumes and animations in your first semester! After all, if you want to be job ready upon graduation, you need to feel at home on set, on location, in a studio and an editing suite. Employers think it's important, too.

## STATE-OF-THE-ART FILM CENTRE

Classes take place in the Bosa Centre for Film and Animation, a cutting edge facility that gives you access to the latest technology. In addition

to leading edge 3-D capabilities, there is also a 200-seat high definition theatre, sound mixing and recording studios, an 8,000 square foot sound stage, picture and sound editing labs as well as visual effects, animation and costuming studios. Everything, in fact, you need to make a feature film.

## INDUSTRIAL STRENGTH

Our programs were built from the ground up by industry veterans. We know precisely what the industry is looking for and make sure our grads are equipped with the skills necessary to meet industry demand. It is this tradition of expertise and collaboration that has made our school one of the most respected in the industry.

## A NEW TAKE ON FILM EDUCATION

Our four-year Motion Picture Arts degree turns conventional film education on its head. First off, we offer technical instruction before theory. This ensures you're job ready earlier. Plus, we've added an entrepreneurial component. You learn how to pitch a movie, secure financing and get your film distributed. In other words, our degree is as much about getting a movie made as it is about making movies.

## CAREER PATHS

director • assistant director • filmmaker • producer • editor • production crew • camera operator • costumer • writer • cinematographer • documentary filmmaker • animator • VFX artist • VFX supervisor
